Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

Drawings

1. The drawings are objected to because figures do not clearly show the mechanical interaction (for example figure 10). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Prior Art cited

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Ohashi (JP 06270491) discloses that when the head and the tank is replace, the carrier is moved to a replacing position, a head lever, a tank lever is operated t be replace (Abstract). However, Ohashi fails to teach the carriage is stopped at a second position different from a first stopping position provided on one end of movement range and a lever member is provided movably to a position for fixing the recording means on the carriage or releasing the same therefrom and wherein at the time the carriage is moved to the first position, the lever is moved from a position for releasing the recording means from the carriage to a position for fixing the recording means on the carriage at the predetermined position.

- Yanagi et al. (JP 08207392) discloses that when the recording head is removed from the carriage, the hook is raised upward, the lever moved to the releasing position (Abstract). However, Ohashi fails to teach the carriage is stopped at a second position different from a first stopping position provided on one end of movement range and a lever member is provided movably to a position for fixing the recording means on the carriage or releasing the same therefrom and wherein at the time the carriage is moved to the first position, the lever is moved from a position for releasing the recording means from the carriage to a position for fixing the recording means on the carriage at the predetermined position.
